FOR IMMEDIATE RELEASE

## Innoval Technology announces new Managing Director

Effective as of August 1st, 2017, Dr Gary Mahon has become Managing Director of Innoval Technology (Innoval). Gary moves into his new position having been a Director of Innoval for the last 10 years. He is a metallurgist with 30 years aluminium product expertise, and so is ideally placed to take the company forward.

He replaces Dr Tom Farley who, after much consideration, has decided to retire from the aluminium industry after 28 successful years. Tom joined Innoval at its inception in 2003 and was appointed Managing Director in 2007. Over the last 10 years he has successfully led the company and played a key role in the purchase of Innoval Technology by Danieli in 2012. The company would like to acknowledge his significant contributions and thank him for his commitment and dedication throughout the years.
